

## Complete Collaboration Solution for Any Meeting Space

Solstice Conference paired with the Jabra PanaCast and Jabra Speak 750 combines the reach of video conferencing and the power of rich, multi-participant content sharing to enhance the collaboration experience between onsite and remote users.

This room solution is a new class of video conferencing room system that enhances meeting collaboration by seamlessly supporting all major conferencing platforms running on user's laptops and providing wireless connectivity to room technology.

### Solstice Conference

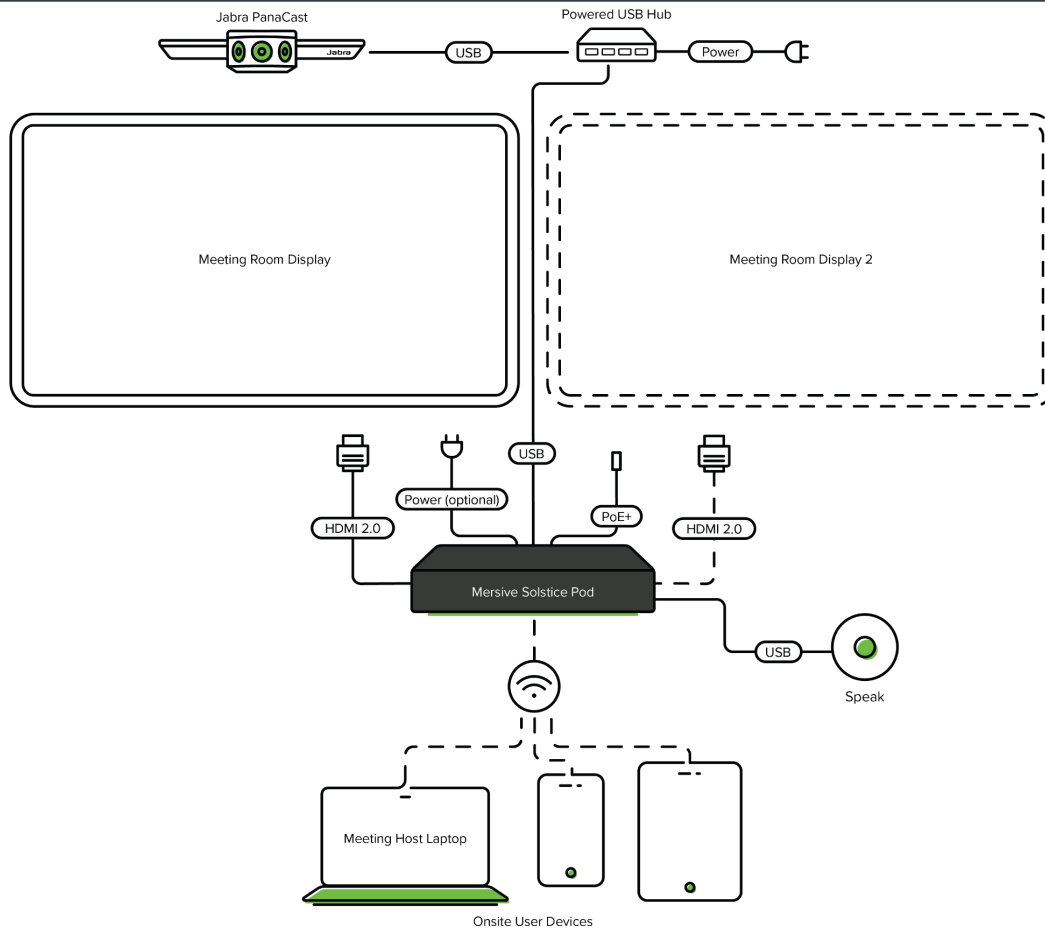

- Multi-participant content sharing from any device
- Agnostic support for all major conferencing services
- Easy, one-step start from the meeting host's laptop
- Connects the Jabra PanaCast USB camera and Jabra Speak omnidirectional speakerphone to the conference
- Enterprise-grade security and fully IT-compliant
- Cloud-based deployment management and analytics

### Jabra PanaCast with Jabra Speak 750

- Panoramic 180° view without distortion with adaptive width of view and settings for different lighting conditions
- Omni-directional microphone and hifi-grade speaker with full duplex audio for best voice collaboration
- Easy plug-and-play USB and/or Bluetooth connectivity and installation

### Meeting Host Laptop

- Requires Windows or macOS laptops to host meetings
- Supports Zoom, Teams, and most other conferencing apps

## System Components

### Mersive Solstice

Solstice Pod Gen3  
 HDMI cable  
 Power supply

### Jabra PanaCast

180° panoramic camera  
 USB-C to USB-A cable  
 (1 m/3 ft)  
 Powered USB hub or power injector

### Jabra Speak 750

Speakerphone with touch controls  
 Link 370 USB Bluetooth Adapter  
 Theft protection, table mount, and  
 travel pouch accessories

### Additional Requirements

Meeting host laptop (Windows or  
 macOS)  
 Web conferencing service (Teams,  
 Zoom, etc.)  
 Current Solstice Subscription

## Installation Instructions

1. Attach the Solstice Pod to power and the local Ethernet and/or wireless network (PoE+ supported).
2. Connect the Pod to the display monitor via HDMI (outer HDMI 1 port recommended). An optional second display monitor can also be connected to the Pod.
1. Connect the Jabra Panacast camera through a powered USB hub or USB power injector to one of the USB ports on the back of the Pod.
3. Connect the Jabra Speak to another USB port on the back of the Solstice Pod.
4. As a note, Mersive recommends configuring the Solstice Pod's basic settings, such as updating the display name to match the room name.

For conferencing support, meeting hosts simply install the Solstice app on their laptop device along with their web conferencing application of choice. Note that the host laptop must be connected to the same network as the Pod.

## Technical Specifications

### Solstice Pod Gen3

Part #: SP-8000-E1

<b>Supported user devices</b>	Windows, macOS, iOS, Android, Chromebook, Linux
<b>Number of users</b>	Unlimited
